

*Beautiful shoes, founded on fit,
DEVOTED to style.*

revere's innovative PFS System allows you to customise the fit of your revere shoes using our 3mm filler insert. Used in conjunction with our revere inserts, the filler can be placed under the insert to provide a firmer fitting, if you are experiencing any slipping or movement.

The filler can be trimmed to ensure the perfect fit with our shoes, and can also be used with custom orthotics if required.

devoted
TO STYLE AND
COMFORT

The production of every revere sandal & shoe combines the use of premium quality materials and craftsmanship to produce our beautiful shoes by hand.

All leathers are hand picked and tested to guarantee they meet our strict quality requirements before entering production. Throughout the shoe production process, our QC inspectors control every aspect from stitching accuracy to leather thickness to ensure the highest quality and consistency of products.

revere shoes have been designed in collaboration with leading footwear experts to provide ultimate adjustability, plus our innovative strap extensions provide extra width when needed to support many foot types.

Throughout our entire collection, revere includes removable footbeds for those required to wear custom made orthotic devices. The extra depth unit allows for a wide variety of custom orthotics to be inserted without taking away from the stylish design of our sandals and shoes.

UNRIVALED FIT, ultimate
ADJUSTABILITY

REVERE STRAP EXTENSIONS
ARE PROVIDED WITH EVERY PAIR OF SANDALS ACROSS
OUR EXTENSIVE COLLECTION. THIS INCLUDES ALL
STYLES AND ALL COLOURS.

As no two feet are the same, revere's innovative strap extensions offer you the ability to personalise the fit of your sandals, whilst not taking away from the stylish look of our upper designs. Whether you have narrow, medium, wide or extra wide feet, the combination of adjustable uppers and our strap extensions, will deliver you a personalised fit to enhance the comfort you so desire.
